SKILLS

Python PHP

Apache c c++

Java embedded c

HTML OOP concepts

LANGUAGES

English
Full Professional Proficiency

Hindi
Full Professional Proficiency

INTERESTS

Python

Machine Learning

PHP Data Science

Artificial intelligence

software development

WORK EXPERIENCE

Software Engineer
SVAM International(North Shore Technologies)

03/2019 – Present   *Noida*

Achievements/Tasks
- Working on PHP for building web applications for clients using Publishers Clearing House(PCH) software

CERTIFICATES

Python Mega course-UDEMY (11/2018 – 03/2019)
learnt to build projects like- Building a Geocoder Web Service,Scraping data from web,Building desktop database application

Data Analysis with Python- INSAID (05/2019 – 07/2019)
Learnt about learning to analyse data using python

PERSONAL PROJECTS

Embedded Systems
- built automated home system in embedded C language using AVR(advanced virtual RISC machine)
- Build line follower robot in embedded c language using AVR & 8051 microprocessor

EDUCATION

Electronics & Communication Engineering
DCRUST, Murthal

2013 – 2017

Courses
- Build embedded systems projects based in embedded C language- Line Follower Robot; bluetooth & wifi controlled Home automation system using AVR microcontroller

Intermediate
Delhi Public School

2011 – 2013

Courses
- Physics, chemistry & mathematics(Non-Medical)

ACHIEVEMENTS

Core Head of college- Discipline Team

Men's race 400m - 2nd prize in college

Mr. Corona
Head title of ramp walk of our college
